**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 8, the recitation of “a second contact of substantially the first length” is unclear.

Claim 6, line 7, the recitation of “a fourth contact of substantially the second length” is unclear.

***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Choy (US 6,116,917).

Choy disclose a device/system (10) comprising:  
a memory module (not shown);

a connector (12) mounted to a base (22) at an acute angle;  
a first contact (E1, see Examiner's attachment) having a first length, a first module connection (E4, see Examiner's attachment) protrude into opening (14), a first signal line (18);  
a second contact (E1) substantially the same with the first contact and dispose adjacent and on the same side with respect to the connector housing;  
a third contact (E2, see Examiner's attachment) having a second length, a third module connection (E3, see Examiner's attachment) protrude into opening (14), a third signal line (18);  
a fourth contact (E2) substantially the same with the third contact and dispose adjacent and on the same side with respect to the connector housing;  
the first length is not equal to the second length;

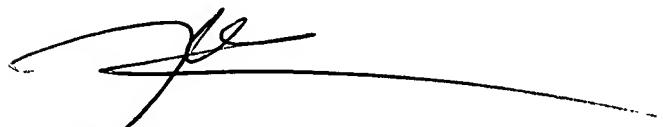

Choy does not disclose the memory module is a double data rate memory module. It has been held that a recitation with respect to the manner in which a claimed apparatus is intended to be employed does not differentiate the claimed apparatus from a prior art apparatus satisfying the claimed structural limitation. *Ex Parte Masham*, 2 USPQ2d 1647 (1987).
